Can you assist me in answering some of these questions?

Thanks.

Subject: Wilcox/possible Superfund site in Bristow OK

Good afternoon, Austin!

You are aware that the U.S. Environmental Protection Agency proposes to add the Wilcox Oil Co. site in Creek County to the National Priorities List of Superfund sites.

I am working on an article for today ...and had a few questions...

I understand that currently there is a 60-day comment period. You know when that ends?

What next?

When is a contractor selected to perform the work? Is that a bidding process?

The work will consist of Scraping soil away and hauling it to ____ where?

How many inches down? Where does the soil come to replace what is removed?

The whole process takes a decade?

Anything you like to add?

Thank you,

Ray Tuttle

which may be a computer program. This attached computer program could
contain a computer virus which could cause harm to EPA's computers,
network, and data. The attachment has been deleted.

This was done to limit the distribution of computer viruses introduced
into the EPA network. EPA is deleting all computer program attachments
sent from the Internet into the agency via Email.

If the message sender is known and the attachment was legitimate, you
should contact the sender and request that they rename the file name
extension and resend the Email with the renamed attachment. After
receiving the revised Email, containing the renamed attachment, you can
rename the file extension to its correct name.

For further information, please contact the EPA Call Center at
(866) 411-4EPA (4372). The TDD number is (866) 489-4900.
